

Oregon achieves . . . together!

OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21

Updated 1/19/2021

Under ODE's *Ready Schools, Safe Learners* guidance, each school¹ has been directed to submit a plan to the district² in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the *Ready Schools, Safe Learners* guidance document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to, school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,³ parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation. *It is required that a revised Operational Blueprint be completed and updated when there is a change of Instructional Model*. Please fill out information:

SCHOOL/DISTRICT/PROGRAM INFORMATION	
Name of School, District or Program	Grants Pass Adventist School
Key Contact Person for this Plan	Richard Rasmussen
Phone Number of this Person	541-479-2293
Email Address of this Person	rrasmussen@gpsdaschool.org
Sectors and position titles of those who	Richard Rasmussen, Principal; Sheryl Shewmake,
informed the plan	teacher; Amy Whitchurch, teacher, school board
	members
Local public health office(s) or officers(s)	Michael Weber, Director, Josephine Co. Public Health
	Dept., David Candelaria, MD, Steven Dobbs
Name of person Designated to Establish,	Richard Rasmussen
Implement and Enforce Physical Distancing	
Requirements	
Intended Effective Dates for this Plan	August 31, 2020 – June 11, 2021
ESD Region	Southern Oregon

1. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

Plans are to share the Operational Blueprint for School Reentry with the parents and our school community by posting it on the school website by August 17, 2020. Public health information is shared with parents, staff, and the school community via email, text messages, Remind, and Facebook. Parents and school community members are welcome to give us feedback on our reentry plans.

¹ For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings.

² For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

³ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a government-to-government basis.

2.	Select which instructional mod	lel will be used:		
	☑ On-Site Learning	\square Hybrid Learning	\square Comprehensive Distance Learning	
3.	If you selected Comprehensive Blueprint for Reentry (i.e., pag	- · ·	only have to fill out the green portion of e).	the Operational

	s, Safe Learners guidance.			•

The remainder of this operational blueprint is not applicable to schools operating a Comprehensive Distance Learning Model.

ESSENTIAL REQUIREMENTS FOR HYBRID / ON-SITE OPERATIONAL BLUEPRINT

This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

1. Public Health Protocols

1a. COMMUNICABLE DISEASE MANAGEMENT PLAN FOR COVID-19

OHA/ODE Requirements

- Conduct a risk assessment as required by OSHA administrative rule OAR 437-001-0744(3)(g).
 - OSHA has developed a <u>risk assessment template</u>.
- Update written Communicable Disease Management Plan to specifically address the prevention of the spread of COVID-19. Examples are located in the <u>Oregon School Nurses Association</u> (OSNA) COVID-19 Toolkit.
 - Review OSHA requirements for infection control plan to ensure that all required elements are covered by your communicable disease management plan, including making the plan available to employees at their workplace.
 Requirements are listed in OSHA administrative rule OAR 437-001-0744(3)(h).
 - OSHA has developed a sample <u>infection control plan</u>.
- Designate a single point-person at each school to establish, implement, support and enforce all RSSL health and safety protocols, including face coverings and physical distancing requirements, consistent with the *Ready Schools, Safe Learners* guidance and other guidance from OHA. This role should be known to all staff in the building with consistent ways for licensed and classified staff to access and voice concerns or needs.
- Create a simple process that allows for named and anonymous sharing of concerns that can be reviewed on a daily and weekly basis by the designated RSSL building point-person. Example: Anonymous survey form or suggestion box where at least weekly submissions and resolutions are shared in some format.
- Include names of the LPHA staff, school nurses, and other medical experts who provided support and resources to the district/school policies and plans. Review relevant local, state, and national evidence to inform plan.
- Process and procedures established to train all staff in sections 1 -3 of the *Ready Schools, Safe Learners* guidance. Consider conducting the training virtually, or, if in-person, ensure physical distancing is maintained to the maximum extent possible.
- Protocol to notify the local public health authority (<u>LPHA Directory</u> by County) of any confirmed COVID-19 cases among students or staff.
- Plans for systematic disinfection of classrooms, common areas, offices, table surfaces, bathrooms and activity areas.
- Process to report to the LPHA any cluster of any illness among staff or students.
- ☑ Protocol to cooperate with the LPHA recommendations.
- ☑ Provide all logs and information to the LPHA in a timely manner.

Hybrid/Onsite Plan

Communicable Disease Management Plan for COVID-19:

An employee risk assessment will be conducted as required by OSHA administrative rule OAR 437-001-0744(3)(g).

Grants Pass Adventist School (GPAS) has an updated Communicable Disease School Management Plan addressing the prevention and spread of COVID-19. The principal will be the designated person to establish, implement and enforce physical distancing requirements, consistent with the *Ready Schools, Safe Learners* guidance and other guidance from OHA.

Local Public Health Authority (LPHA) contact: Michael Weber is the Director of the Josephine County Public Health Department, which will provide support and resources. His phone number is 541-474-5325. We will notify his office of any confirmed COVID-19 cases among students or staff. The school administrative assistant will report to the Local Public Health Authority (LPHA) any cluster of any illness among staff or students. The school will cooperate with the LPHA recommendations and provide all logs and information in a timely manner.

Training: We plan to train all staff in sections 1-3 of the Ready Schools, Safe Learners at a staff meeting on August 18, 2020 either virtually or in-person.

Systematic Disinfection: The custodian will systematically disinfect classrooms, common areas, offices, table surfaces, bathrooms, and activity areas daily. A cold fogger machine will be used to disinfect surfaces in classrooms, offices, bathrooms, and activity areas daily with a bleach water solution approved by the CDC. The teachers will disinfect high-touch areas of classrooms at other times of the school day.

Screening: All students and staff will be screened for symptoms (see section 1f) on entry to the school every day, either visually by the staff and/or with confirmation from a parent/caregiver/guardian. Anyone displaying or reporting the primary symptoms of concern will be isolated in the infirmary room or another designated room, and be sent home as soon as possible.

Communication Letter: A letter will be developed and sent out via email, text, or Remind to communicate with students, families, and staff who have come into close contact with a confirmed case.

Daily student/cohort logs: The school will use daily student attendance and sign-in/out records for the purpose of student/cohort contact tracing. Parent/guardian names and emergency contact information is stored in the school's Student Information System (SIS)

- Protocol to isolate any ill or exposed persons from physical contact with others.
- Protocol for communicating potential COVID-19 cases to the school community and other stakeholders (see section 1e of the Ready Schools, Safe Learners guidance).
- Create a system for maintaining daily logs for each student/cohort for the purposes of contact tracing. This system needs to be made in consultation with a school/district nurse or an LPHA official. Sample logs are available as a part of the <u>Oregon School Nurses</u> Association COVID-19 Toolkit.
 - If a student(s) is part of a stable cohort (a group of students that are consistently in contact with each other or in multiple cohort groups) that conform to the requirements of cohorting (see section 1d of the *Ready Schools, Safe Learners* guidance), the daily log may be maintained for the cohort.
 - If a student(s) is not part of a stable cohort, then an individual student log must be maintained.
- Required components of individual daily student/cohort logs include:
 - Child's name
 - Drop off/pick up time
 - Parent/guardian name and emergency contact information
 - All staff (including itinerant staff, district staff, substitutes, and guest teachers) names and phone numbers who interact with a stable cohort or individual student
- Protocol to record/keep daily logs to be used for contact tracing for a minimum of four weeks to assist the LPHA as needed.
 - See supplemental guidance on LPHA/school partnering on contact tracing.
 - Refer to OHA Policy on Sharing COVID-19 Information
- Process to ensure that all itinerant and all district staff (maintenance, administrative, delivery, nutrition, and any other staff) who move between buildings keep a log or calendar with a running four-week history of their time in each school building and who they were in contact with at each site.
- Process to ensure that the school reports to and consults with the LPHA regarding cleaning and possible classroom or program closure if anyone who has entered school is diagnosed with COVID-19.
- Designate a staff member and process to ensure that the school provides updated information regarding current instructional models and student counts and reports these data in <u>ODE's COVID-</u> 19 Weekly School Status system.
- Protocol to respond to potential outbreaks (see section 3 of the Ready Schools, Safe Learners guidance).

Hybrid/Onsite Plan

database. All staff (including itinerant staff, substitutes, and guest teachers) names and phone numbers who interact with a stable cohort or individual student will be logged daily. The main office will record/keep daily logs to be used for contact tracing for a minimum of four weeks to assist the LPHA as needed.

Reporting to the LPHA: The school administration will report to and consult with the LPHA regarding cleaning and possible classroom or program closure if anyone who has entered school is diagnosed with COVID-19.

Response to Potential Outbreaks: The staff will follow the school's outbreak response protocol as described in the *GPAS Communicable Disease School Management Plan* and coordinate with the LPHA for any outbreak response.

1b. HIGH-RISK POPULATIONS

OHA/ODE Requirements

Serve students in high-risk population(s) whether learning is happening through On-Site (including outside), Hybrid (partially On-Site and partially Comprehensive Distance Learning models), or Comprehensive Distance Learning models.

Medically Fragile, Complex and Nursing-Dependent Student Requirements

All districts must account for students who have health conditions that require additional nursing services. Oregon law (ORS 336.201) defines three levels of severity related to required nursing services:

Hybrid/Onsite Plan

High-Risk Populations: The school will account for students who have health conditions that require additional nursing services pursuant to Oregon law ORS 336.201. Staff and school administrators will work with interdisciplinary teams to address individual student needs. The school does not have a school registered nurse on staff. The staff and school administrators will communicate with parents to determine return to school status and current needs of the student. Service provision will consider health and safety as well as legal standards. High-risk individuals may meet criteria for exclusion during a local health crisis.

OHA/ODE Requirements Hybrid/Onsite Plan Medically Complex: Are students who may have an unstable health condition and who may require daily professional nursing services. 2. Medically Fragile: Are students who may have a lifethreatening health condition and who may require immediate professional nursing services. Nursing-Dependent: Are students who have an unstable or life-threatening health condition and who require daily, direct, and continuous professional nursing services. Review Supplemental Guidance on Community and Health Responsibilities Regarding FAPE in Relation to IDEA During CDL and Hybrid. Staff and school administrators, in partnership with school nurses, or other school health providers, should work with interdisciplinary teams to address individual student needs. The school registered nurse (RN) is responsible for nursing care provided to individual students as outlined in ODE guidance and state law: Communicate with parents and health care providers to determine return to school status and current needs of the student. Coordinate and update other health services the student may be receiving in addition to nursing services. This may include speech language pathology, occupational therapy, physical therapy, as well as behavioral and mental health services. Modify Health Management Plans, Care Plans, IEPs, or 504 or other student-level medical plans, as indicated, to address current health care considerations. The RN practicing in the school setting should be supported to remain up to date on current guidelines and access professional support such as evidence-based resources from the Oregon School Nurses Association. Service provision should consider health and safety as well as legal standards. Appropriate medical-grade personal protective equipment (PPE) should be made available to nurses and other health providers. Work with an interdisciplinary team to meet requirements of ADA and FAPE. High-risk individuals may meet criteria for exclusion during a local health crisis. Refer to updated state and national guidance and resources such as: U.S. Department of Education Supplemental Fact Sheet: Addressing the Risk of COVID-19 in Preschool, Elementary and Secondary Schools While Serving Children with Disabilities from March 21, 2020. ODE guidance updates for Special Education. Example from March 11, 2020. OAR 581-015-2000 Special Education, requires districts to provide 'school health services and

school nurse services' as part of the 'related services' in order 'to assist a child with a disability to

Control of Diseases: General Powers and Responsibilities, outlines authority and responsibilities for school exclusion.

OAR 333-019-0010 Public Health: Investigation and

benefit from special education.'

1c. PHYSICAL DISTANCING

OHA/ODE Requirements

- Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require **use of all space** in the calculation. This also applies for professional development and staff gatherings. If implementing Learning Outside guidance, establish an outside learning space for learning that maintains minimum 35 square feet per person.
 - Within this design, educators should have their own minimum of 35 square feet and the design of the learning environment must allow for some ability for the educator to move through the room efficiently and carefully without breaking 6 feet of physical distance to the maximum extent feasible.
- Support physical distancing in all daily activities and instruction, maintaining six feet between individuals to the maximum extent possible.
- Minimize time standing in lines and take steps to ensure that six feet of distance between students is maintained, including marking spacing on floor, one-way traffic flow in constrained spaces, etc.
- Schedule modifications to limit the number of students in the building or outside learning space (e.g., rotating groups by days or location, staggered schedules to avoid hallway crowding and gathering).
- Plan for students who will need additional support in learning how to maintain physical distancing requirements. Provide instruction; don't employ punitive discipline.
- Staff must maintain physical distancing during all staff meetings and conferences, or consider remote web-based meetings.

Hybrid/Onsite Plan

Physical Distancing: A minimum of 35 square feet per person will be used to determine room capacity. Only usable classroom space will be used in the calculations, knowing that desks and room set-up will require space to must be calculated in determining room capacity.

The staff and teachers will stress physical distancing in all daily activities and instruction, maintain at least six feet between individuals to the maximum extent possible.

To ensure that six feet of distance between students is maintained to the maximum extent possible, Velcro carpet spot markers have been set in the hallways, the Commons, and the area leading to the gym for two-way traffic flow. The teachers will minimize time students are standing in lines and take steps to maintain physical distancing when in lines. Yellow duct tape lines space six feet apart have been applied outside on the sidewalks leading up to the main entrance and the preschool, grades 3-5, and grades 6-8 classroom doors.

Recess and PE schedules will be staggered to avoid hallway crowding and gathering. If lockers are used, the students will be released on a staggered schedule to maintain physical distancing. Students in preschool, grades 3-5, and grades 6-8 will eat their snacks/lunches in their classrooms rather than together in the Commons. Grades K-2 will eat their lunches in the Commons.

Teachers will train their students on methods for maintaining physical distance of at least six feet and its importance.

1d. COHORTING

OHA/ODE Requirements

- Where feasible, establish stable cohorts: groups shall be no larger than can be accommodated by the space available to provide 35 square feet per person, including staff.
 - The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading disease increases
- Students cannot be part of any single cohort, or part of multiple cohorts that exceed a total of 100 people within the educational week⁴, unless the school is offering Learning Outside, then they must follow guidelines for cohorting in Learning Outside guidance. Schools must plan to limit cohort sizes to allow for efficient contact-tracing and minimal risk for exposure. Cohorts may change week-to-week, but must be stable within the educational week.
- Each school must have a system for daily logs to ensure contract tracing among the cohort (see section 1a of the *Ready Schools*, *Safe Learners* guidance).
- Minimize interaction between students in different stable cohorts (e.g., access to restrooms, activities, common areas). Provide access to All Gender/Gender Neutral restrooms.
- Cleaning and sanitizing surfaces (e.g., desks, dry erase boards, door handles, etc.) must be maintained between multiple student uses, even in the same cohort.

Hybrid/Onsite Plan

Cohorting: A cohort is a group of people banded together or treated as a group. Stable cohort groups will be established by their classroom designation where feasible: preschool, grades K-2, grades 3-5, and grades 6-8. Daily attendance and sign-in/out records will serve as daily logs to provide contract tracing among the cohorts. Interaction between students in different stable cohorts will be minimized. On Fridays, all-school chapels will be delivered through Zoom meetings with the cohorts remaining in their classrooms or with regular classroom worships rather than with an all-school chapel period.

Cleaning and sanitizing surfaces (e.g., desks, dry erase boards, door handles, etc.) will be maintained between multiple student uses, even in the same cohort.

The number of staff that interact with each cohort will be minimized to the extent possible. Staff who interact with multiple stable cohorts must wash/sanitize their hands between interactions with different stable cohorts.

⁴ The cohort limit is focused on the students experience and their limit of 100 people includes every person they come into contact with, including staff. There is not a limitation for staff in cohort size while care should be given to design and attention to the additional requirements.

OH	A/ODE Requirements	Hybrid/Onsite Plan
\boxtimes	Design cohorts such that all students (including those protected	
	under ADA and IDEA) maintain access to general education, grade-	
	level academic content standards ⁵ , and peers.	
\boxtimes	Minimize the number of staff that interact with each cohort to the	
	extent possible, staff who interact with multiple stable cohorts	
	must wash/sanitize their hands between interactions with	
	different stable cohorts.	
\boxtimes	Elementary staff who interact with multiple cohorts (music, PE,	
	library, paraprofessionals who provide supervision at recesses,	
	etc.) should have schedules altered to reduce the number of	
	cohorts/students they interact within a week. Consider having	
	these staff engage via technology, altering duties so that they are	
	not in close contact with students in multiple cohorts, or adjust	
	schedules to reduce contacts.	

1e. PUBLIC HEALTH COMMUNICATION AND TRAINING

OHA/ODE Requirements

- Communicate to staff at the start of On-Site instruction and at periodic intervals explaining infection control measures that are being implemented to prevent spread of disease.
- ✓ Offer initial training to all staff prior to being in-person in any instructional model. Training could be accomplished through all staff webinar, narrated slide decks, online video, using professional learning communities, or mailing handouts with discussion. Training cannot be delivered solely through the sharing or forwarding information electronically or in paper copy form as this is an insufficient method for ensuring fidelity to public health protocols (see section 8b of the Ready Schools, Safe Learners guidance for specific training requirements). Note: Instructional time requirements allow for time to be devoted for professional learning that includes RSSL training.
- Post "COVID -19 Hazard Poster" and "Masks Required" signs as required by OSHA administrative rule
 OAR 437-001-0744(3)(d) and (e).
- Develop protocols for communicating with students, families and staff who have come into close contact with a person who has COVID-19.
 - The definition of exposure is being within 6 feet of a person who has COVID-19 for at least 15 cumulative minutes in a day.
 - OSHA has developed a <u>model notification policy</u>.
- Develop protocols for communicating immediately with staff, families, and the school community when a new case(s) of COVID-19 is diagnosed in students or staff members, including a description of how the school or district is responding.
- Periodic interval training also keeps the vigilance to protocols ever present when fatigue and changing circumstances might result in reduced adherence to guidance.
- Provide all information in languages and formats accessible to the school community.

Hybrid/Onsite Plan

Public Health Communication and Training:

The school administration will communicate to staff, students, and school families at the start of On-Site instruction and at periodic intervals the infection control measures being implemented to prevent spread of disease (see the *GPAS Communicable Disease Management Plan*).

Initial training will be offered to all staff prior to being in-person in any instructional model through all staff webinar, narrated slide decks, online video, using professional learning communities, or mailing handouts with discussion. Periodic interval training will also offered.

The "COVID-19 Hazards Poster," provided by Oregon OSHA will be posted in a conspicuous manner in a central location where employees can be expected to see it. Employees working remotely will be provided with a copy of the COVID-19 Hazards Poster through electronic or equally effective means.

A copy of the "Masks Required" sign developed by the Oregon Health Authority will be posted in areas where masks, face coverings, or face shields are required.

Protocols will be developed for communicating with students, families and staff who have come into close contact with a person who has COVID-19.

The definition of exposure is being within 6 feet of a person who has COVID-19 for at least 15 cumulative minutes in a day.

Protocols will also be developed for communicating immediately with staff, families, and the school community when a new case(s) of COVID-19 is diagnosed in students or staff members, including a description of how the school or district is responding.

The school administration will update the Communicable Disease Management Plan with communication protocols as needed.

⁵ Academic content standards refer to all of Oregon state academic standards and the Oregon CTE skill sets.

- Direct students and staff to stay home if they have COVID-19 symptoms. COVID-19 symptoms are as follows:
 - Primary symptoms of concern: cough, fever (temperature of 100.4°F or higher) or chills, shortness of breath, difficulty breathing, or new loss of taste or smell.
 - Note that muscle pain, headache, sore throat, diarrhea, nausea, vomiting, new nasal congestion, and runny nose are also symptoms often associated with COVID-19. More information about COVID-19 symptoms is available <u>from</u> CDC.
 - In addition to COVID-19 symptoms, students must be excluded from school for signs of other infectious diseases, per existing school policy and protocols. See pages 9-11 of OHA/ODE <u>Communicable Disease Guidance for Schools</u>.
 - Emergency signs that require immediate medical attention:
 - Trouble breathing
 - Persistent pain or pressure in the chest
 - New confusion or inability to awaken
 - Bluish lips or face (lighter skin); greyish lips or face (darker skin)
 - Other severe symptoms
- Diligently screen all students and staff for symptoms on entry to bus/school/outside learning space every day. This can be done visually as well as asking students and staff about any new symptoms or close contact with someone with COVID-19. For students, confirmation from a parent/caregiver or guardian can also be appropriate. Staff members can self-screen and attest to their own health, but regular reminders of the importance of daily screening must be provided to staff.
 - Anyone displaying or reporting the primary symptoms of concern must be isolated (see section 1i of the *Ready Schools, Safe Learners* guidance) and sent home as soon as possible. <u>See table "Planning for COVID-19 Scenarios in Schools."</u>
 - Additional guidance for nurses and health staff.
- ▼ Follow LPHA advice on restricting from school any student or staff known to have been exposed (e.g., by a household member) to COVID-19. See "Planning for COVID-19 Scenarios in Schools" and the COVID-19 Exclusion Summary Guide.
- Staff or students with a chronic or baseline cough that has worsened or is not well-controlled with medication must be excluded from school. Do not exclude staff or students who have other symptoms that are chronic or baseline symptoms (e.g., asthma, allergies, etc.) from school. See the COVID-19 Exclusion Summary Guide.
- Hand hygiene on entry to school every day: wash with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

Hybrid/Onsite Plan

Entry and Screening: Students and staff that have an illness with at least one primary COVID-19 symptom in the last 10 days will be excluded from school. Any person that has an illness with at least one primary COVID-19 symptom in the last 10 days will not be admitted on campus.

COVID-19 primary symptoms of concern include: cough, fever (temperature of 100.4°F or higher) or chills, shortness of breath, difficulty breathing, or new loss of taste or smell.

Muscle pain, headache, sore throat, diarrhea, nausea, vomiting, new nasal congestion, and runny nose are also symptoms often associated with COVID-19.

Students will also be excluded from school for signs of other infectious diseases, per existing school policy and protocols.

All students and staff will be screened for symptoms on entry to the school/outside learning space every day. This will be done visually as well as asking students and staff about any new symptoms or close contact with someone with COVID-19. For students, confirmation from a parent/caregiver or guardian is also acceptable. Staff members can self-screen and attest to their own health.

When the screening indicates that a student may be symptomatic, the student will be directed to the office, where established protocols from the CDP will be followed. (See section 1a).

Anyone displaying or reporting the primary symptoms of concern will be isolated (see section 1i of the *Ready Schools, Safe Learners* guidance) and sent home as soon as possible.

All students in preschool, grades 3-5, and grades 6-8 with an outside doors will utilize that entrance. The classroom teacher will conduct a visual screen for the appearance of symptoms. Students in grades K-2 will enter through the main door and a staff member will conduct the visual screening for symptoms.

Hand-sanitizers will be placed by each entrance prior to student entrance to classes, or students will utilize classroom stations to wash hands

Any student or staff known to have been exposed (e.g., by a household member) to COVID-19 shall not be allowed on campus until the passage of 14 calendar days after exposure and until symptoms (e.g., fever, cough, shortness of breath, sore throat, headache) are improving. See "Planning for COVID-19 Scenarios in Schools" and the COVID-19 Exclusion Summary Guide.

Students or staff who have a cough that is not a new onset or worsening cough (e.g., asthma, allergies, etc.) will not be excluded from school.

Parents/guardians can provide information regarding existing conditions that cause coughing to be utilized for the purpose of screening, as previously existing coughs that are not worsening are not considered symptomatic of COVID-19.

1g. VISITORS/VOLUNTEERS

OHA/ODE Requirements

- □ Restrict non-essential visitors/volunteers.
 - Examples of essential visitors include: DHS Child Protective Services, Law Enforcement, etc.
 - Examples of non-essential visitors/volunteers include: Parent Teacher Association (PTA), classroom volunteers, etc.
- Diligently screen all visitors/volunteers for symptoms and ask questions about symptoms and any close contact with someone diagnosed with COVID-19 upon every entry. Restrict from school property any visitor known to have been exposed to COVID-19. See the COVID-19 Exclusion Summary Guide.
- Visitors/volunteers must wash or sanitize their hands upon entry and exit.
- Visitors/volunteers must maintain six-foot distancing, wear face coverings, and adhere to all other provisions of the *Ready Schools*, *Safe Learners* guidance.

Hybrid/Onsite Plan

Visitors/Volunteers: Visitors/Volunteers will be unable to work in the school or complete other volunteer activities that require in-person interaction at this time. Adults in the school building are limited to essential personnel only.

All visitors/volunteers will be screened for symptoms and asked questions about symptoms and any close contact with someone diagnosed with COVID-19 upon every entry. Any visitor known to have been exposed to COVID-19 will be restricted from school property. See the COVID-19 Exclusion Summary Guide.

Visitors/volunteers must wash or sanitize their hands upon entry and exit

Visitors/volunteers must maintain six-foot distancing, wear face coverings, and adhere to all other provisions of the *Ready Schools, Safe Learners* guidance.

1h. FACE COVERINGS, FACE SHIELDS, AND CLEAR PLASTIC BARRIERS

OHA/ODE Requirements

- Employers are required to provide masks, face coverings, or face shields for all staff, contractors, other service providers, visitors and volunteers.
- Face coverings or face shields for all staff, contractors, other service providers, visitors or volunteers following CDC guidelines for Face Coverings. Individuals may remove their face coverings while working alone in private offices or when separated by more than 6 feet in outside learning spaces. Face shields are an acceptable alternative only when a person has a medical condition that prevents them from wearing a mask or face covering, when people need to see mouth and tongue motions in order to communicate, or when an individual is speaking to an audience for a short period of time and clear communication is otherwise not possible.
- Face coverings or face shields for all students in grades Kindergarten and up following <u>CDC guidelines for Face Coverings</u>. Face shields are an acceptable alternative when a student has a medical condition that prevents them from wearing a mask or face covering, or when people need to see the student's mouth and tongue motions in order to communicate.
- Face coverings should be worn both indoors and outdoors, including during outdoor recess.
- Group mask breaks" or "full classroom mask breaks" are not allowed. If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time:
 - Provide space away from peers while the face covering is removed. In the classroom setting, an example could be a designated chair where a student can sit and take a 15 minute "sensory break;"
 - o Students must not be left alone or unsupervised;
 - Designated area or chair must be appropriately distanced from other students and of a material that is easily wiped down for disinfection after each use;
 - Provide additional instructional supports to effectively wear a face covering;
 - Provide students adequate support to re-engage in safely wearing a face covering;

Hybrid/Onsite Plan

Face Coverings, Face Shields, and Clear Plastic Barriers:

Face coverings or Face shields: Face coverings or face shields are required for all students in grades kindergarten and above along with all staff, contractors, other service providers, visitors, and volunteers. Individuals may remove their face coverings while working alone in private offices or when separated by more than 6 feet in outside learning spaces.

Face masks, face coverings, or face shields will be provided for all staff, contractors, other service providers, visitors, and volunteers as needed.

Face coverings should be worn both indoors and outdoors, including during outdoor recess. It is **recommended** that if face coverings are worn, they should be washed daily or a new covering worn daily.

Group mask breaks" or "full classroom mask breaks" are not allowed.

Face masks are required for school medical personnel when providing direct contact care and monitoring of staff/students displaying symptoms. School medical personnel shall also wear appropriate Personal Protective Equipment (PPE) for their role.

- Students cannot be discriminated against or disciplined for an inability to safely wear a face covering during the school day.
- Face masks for school RNs or other medical personnel when providing direct contact care and monitoring of staff/students displaying symptoms. School nurses shall also wear appropriate Personal Protective Equipment (PPE) for their role.
 - Additional guidance for nurses and health staff.

Accommodations under ADA or IDEA and providing FAPE while attending to Face Covering Guidance

- ☑ If any student requires an accommodation to meet the requirement for face coverings, districts and schools must limit the student's proximity to students and staff to the extent possible to minimize the possibility of exposure. Appropriate accommodations could include:
 - Offering different types of face coverings and face shields that may meet the needs of the student.
 - Spaces away from peers while the face covering is removed; students must not be left alone or unsupervised.
 - Short periods of the educational day that do not include wearing the face covering, while following the other health strategies to reduce the spread of disease.
 - Additional instructional supports to effectively wear a face covering.
- For students with existing medical conditions and a physician's orders to not wear face coverings, or other health related concerns, schools/districts must not deny any in-person instruction.
- Schools and districts must comply with the established IEP/504 plan prior to the closure of in-person instruction in March of 2020, or the current plan in effect for the student if appropriately developed after March of 2020.
 - If a student eligible for, or receiving services under a 504/IEP, cannot wear a face covering due to the nature of the disability, the school or district must:
 - Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan including on-site instruction with accommodations or adjustments.
 - Not make placement determinations solely on the inability to wear a face covering.
 - 3. Include updates to accommodations and modifications to support students in plans.
 - For students protected under ADA/IDEA, who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering, the school or district must:
 - Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan.
 - The team must determine that the disability is not prohibiting the student from meeting the requirement.
 - If the team determines that the disability is prohibiting the student from meeting the requirement, follow the requirements for students eligible for, or receiving services under, a 504/IEP who cannot wear a face covering due to the nature of the disability,
 - If a student's 504/IEP plan included supports/goals/instruction for behavior or

Hybrid/Onsite Plan

If a student removes a face covering or demonstrates a need to remove the face covering for a short period of time, school staff will:

- Provide space away from peers while the face covering is removed. Students will not be left alone or unsupervised.
- Provide additional instructional supports to effectively wear a face covering.
- Provide students adequate support to re-engage in safely wearing a face-covering.
- Provide short periods of time in the educational day that do not include wearing the face covering while following the other health strategies to reduce the spread of disease.

Students with existing medical conditions, doctor's orders to not wear face coverings, or other health related concerns will not be denied access to on-site instruction.

Comprehensive Distance Learning may be an option for students who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering during On-site instruction.

For students with educational accommodation/modification plans who cannot wear a face covering due to the nature of the disability, the school will:

- Review the plan to ensure access to instruction in a manner comparable to what was originally established in the student's plan, including on-site instruction with accommodations/adjustments as needed.
- Not determine placement solely on the inability to wear a face covering.
- Update the plan to support students.

For students not currently under an IEP or 504, the school will consider whether or not the student's inability to consistently wear a face covering or face shield as required is due to a disability. Ongoing inability to meet this requirement may be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504.

Children under the age of 5 or not yet in kindergarten should not wear a face covering. Children of any age should not wear a face covering:

- If they have a medical condition that makes it difficult for them to breathe with a face covering;
- If they experience a disability that prevents them from wearing a face covering;
- If they are unable to remove the face covering independently; or
- While sleeping.

OHA/ODE Requirements	Hybrid/Onsite Plan
social emotional learning, the school team must evaluate the student's plan prior to providing instruction through Comprehensive Distance Learning. 3. Hold a 504/IEP meeting to determine equitable access to educational opportunities which may include limited in-person instruction, on-site instruction with accommodations, or Comprehensive Distance Learning.	
For students not currently served under an IEP or 504, districts must consider whether or not student inability to consistently wear a face covering or face shield as required is due to a disability. Ongoing inability to meet this requirement may be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504.	
☐ If a staff member requires an accommodation for the face covering or face shield requirements, districts and schools shall work to limit the staff member's proximity to students and staff to the extent possible to minimize the possibility of exposure.	

1i. ISOLATION AND QUARANTINE

OHA/ODE Requirements

- Protocols for exclusion and isolation for sick students and staff whether identified at the time of bus pick-up, arrival to school, or at any time during the school day.
- Protocols for screening students, as well as exclusion and isolation protocols for sick students and staff identified at the time of arrival or during the school day. See the <u>COVID-19 Exclusion Summary</u> Guide.
 - Work with school nurses, health care providers, or other staff with expertise to determine necessary modifications to areas where staff/students will be isolated. If two students present COVID-19 symptoms at the same time, they must be isolated at once. If separate rooms are not available, ensure that six feet distance is maintained. Do not assume they have the same illness. Consider if and where students and staff will be isolated during learning outside. Create a comfortable outdoor area for isolation or follow plan for in building isolation.
 - Consider required physical arrangements to reduce risk of disease transmission.
 - Plan for the needs of generally well students who need medication or routine treatment, as well as students who may show signs of illness.
 - Additional guidance for nurses and health staff for providing care to students with complex needs.
- Students and staff who report or develop symptoms must be isolated in a designated isolation area in the school or outside learning space, with adequate space and staff supervision and symptom monitoring by a school nurse, other school-based health care provider or school staff until they are able to go home. Anyone providing supervision and symptom monitoring must wear appropriate face covering or face shields.
 - School nurses and health staff in close contact with symptomatic individuals (less than 6 feet) must wear a medical-grade face mask. Other Personal Protective Equipment (PPE) may be needed depending on symptoms and care provided. Consult a nurse or health care professional regarding appropriate use of PPE. Any PPE used during care of a symptomatic individual must be

Hybrid/Onsite Plan

Isolation Measures:

The staff will refer to the *GPAS Communicable Disease Management Plan* for appropriate isolation determination and processes. See the <u>COVID-19 Exclusion Summary Guide</u>.

All students who become ill at school with excludable symptoms will remain at school supervised by staff until parents can pick them up in the designated isolation area or outside learning space. The student will be provided a facial covering (if they can safely wear one). The staff should wear a facial covering or face shield and maintain physical distancing, but never leave a child unattended.

If two students present COVID-19 symptoms at the same time, they will be isolated at once. If separate rooms are not available, six feet distance will be maintained in the isolation area.

While exercising caution to maintain (ensure) safety is appropriate when working with children exhibiting symptoms, it is also critical that staff maintain sufficient composure and disposition so as not to unduly worry a student or family.

Staff will maintain student confidentiality as appropriate.

Daily logs must be maintained containing the following:

- Name of the students sent home for illness, cause of illness, time of onset, as per designated communicable disease surveillance logs; and
- Name of the students visiting the office for illness symptoms, even if not sent home, as per routine health logs.

Staff and students who are ill must stay home from school and must be sent home if they become ill at school, particularly if they have COVID-19 symptoms.

- properly removed and disposed of prior to exiting the care space.
- After removing PPE, hands shall be immediately cleaned with soap and water for at least 20 seconds. If soap and water are not available, hands can be cleaned with an alcohol-based hand sanitizer that contains 60-95% alcohol.
- If able to do so safely, a symptomatic individual shall wear a face covering.
- To reduce fear, anxiety, or shame related to isolation, provide a clear explanation of procedures, including use of PPE and handwashing.
- Staff and students who are ill must stay home from school and must be sent home if they become ill at school, particularly if they have COVID-19 symptoms. Refer to table in <u>"Planning for COVID-19 Scenarios in Schools."</u>
- Involve school nurses, School Based Health Centers, or staff with related experience (Occupational or Physical Therapists) in development of protocols and assessment of symptoms (where staffing exists).
- Record and monitor the students and staff being isolated or sent home for the LPHA review.
- The school must provide a remote learning option for students who are required to be temporarily off-site for isolation and quarantine.

Hybrid/Onsite Plan

Staff, students, and essential volunteers with known or suspected COVID-19 cannot remain at school and should return only after their symptoms resolve and they are physically ready to return to school. In no case can they return before:

- the passage of 14 calendar days after exposure; and
- symptoms have been resolved for 72 hours without the use of anti-fever medications.

The school will provide a remote learning option for students who are required to be temporarily off-site for isolation and quarantine.

2. Facilities and School Operations

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for instructional and extra-curricular activities requiring additional considerations (see section 5f of the *Ready Schools, Safe Learners* guidance).

2a. ENROLLMENT

(Note: Section 2a does not apply to private schools.)

JHF	YOUE Requirements	Hybrid/Onsite Plan
	Enroll all students (including foreign exchange students) following	
	the standard Oregon Department of Education guidelines.	
	The temporary suspension of the 10-day drop rule does not	
	change the rules for the initial enrollment date for students:	
	 The ADM enrollment date for a student is the first day of 	
	the student's actual attendance.	
	 A student with fewer than 10 days of absence at the 	
	beginning of the school year may be counted in	
	membership prior to the first day of attendance, but not	
	prior to the first calendar day of the school year.	
	 If a student does not attend during the first 10 session days 	
	of school, the student's ADM enrollment date must reflect	
	the student's actual first day of attendance.	
	 Students who were anticipated to be enrolled, but who do 	
	not attend at any time must not be enrolled and submitted	
	in ADM.	
	If a student has stopped attending for 10 or more days, districts	
	must continue to try to engage the student. At a minimum,	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	districts must attempt to contact these students and their families	
	weekly to either encourage attendance or receive confirmation	
	that the student has transferred or has withdrawn from school.	
	This includes students who were scheduled to start the school	
	year, but who have not yet attended.	
	When enrolling a student from another school, schools must	
	request documentation from the prior school within 10 days of	
	enrollment per OAR 581-021-0255 to make all parties aware of the	
	transfer. Documentation obtained directly from the family does	
	not relieve the school of this responsibility. After receiving	
	documentation from another school that a student has enrolled,	
	drop that student from your roll.	
	Design attendance policies to account for students who do not	
	attend in-person due to student or family health and safety	
	concerns.	
	When a student has a pre-excused absence or COVID-19 absence,	
	the school district must reach out to offer support at least weekly	
	until the student has resumed their education.	
	When a student is absent beyond 10 days and meets the criteria	
	for continued enrollment due to the temporary suspension of the	
	10 day drop rule, continue to count them as absent for those days	
	and include those days in your Cumulative ADM reporting.	
	2b. ATTE	NDANCE

(Note: Section 2b does not apply to private schools.)

OH/	/ODE Requirements	Hybrid/Onsite Plan
	Grades K-5 (self-contained): Attendance must be taken at least	
	once per day for all students enrolled in school, regardless of the	
	instructional model (On-Site, Hybrid, Comprehensive Distance	
	Learning, online schools).	
	Grades 6-12 (individual subject): Attendance must be taken at	
	least once for each scheduled class that day for all students	
	enrolled in school, regardless of the instructional model (On-Site,	
	Hybrid, Comprehensive Distance Learning, online schools).	
	Alternative Programs: Some students are reported in ADM as	
	enrolled in a non-standard program (such as tutorial time), with	
	hours of instruction rather than days present and days absent.	
	Attendance must be taken at least once for each scheduled	
	interaction with each student, so that local systems can track the	
	student's attendance and engagement. Reported hours of	
	instruction continue to be those hours in which the student was	
	present.	
	Online schools that previously followed a two check-in per week	
	attendance process must follow the Comprehensive Distance	
	Learning requirements for checking and reporting attendance.	
	Provide families with clear and concise descriptions of student	
	attendance and participation expectations as well as family	
	involvement expectations that take into consideration the home	
	environment, caregiver's work schedule, and mental/physical	
	health.	

2c. TECHNOLOGY

✓ Update procedures for district-owned or school-owned devices to match cleaning requirements (see section 2d of the *Ready Schools, Safe Learners* guidance).

Procedures for return, inventory, updating, and redistributing district-owned devices must meet physical distancing requirements.

OHA/ODE Requirements

Hybrid/Onsite Plan

Technology: The staff will clean and sanitize each device brought in for updates, repair, return, inventory, or redistribution.

All students in grades 3-8 will be assigned an Oregon Conference-owned device for use in the school building. Students in grades 3-8

)H	A/ODE Requirements	Hybrid/Onsite Plan
\boxtimes	If providing learning outside and allowing students to engage with devices during the learning experiences, provide safe charging stations.	will have the option to to needed for distance lear
		The school will continue continuous learning exp learning setting (off-site provision for non-digital computers will not be as
		Families will be surveyed type, and condition of delearning.

will have the option to take laptop computers home for at-home use if needed for distance learning.

The school will continue Google Classroom work to facilitate continuous learning experiences that occur on-site and in a distance learning setting (off-site); include options for digital learning and provision for non-digital distance learning where Internet and computers will not be available.

Families will be surveyed to collect information about the number, type, and condition of devices used in their homes to support distance learning.

The school will plan for adequate technology at home for off-site working, teaching, and learning. Teachers will prepare for the possibility that a student, classroom/cohort, or the whole school will need to move to Comprehensive Distance Learning.

If the classroom teacher provides learning outside and allows students to engage with devices during the learning experiences, safe charging stations will be provided.

2d. SCHOOL SPECIFIC FUNCTIONS/FACILITY FEATURES

OHA/ODE Requirements

- Handwashing: All people on campus shall be advised and encouraged to frequently wash their hands or use hand sanitizer.
- Equipment: Develop and use sanitizing protocols for all equipment used by more than one individual or purchase equipment for individual use.
- Events: Cancel, modify, or postpone field trips, assemblies, athletic events, practices, special performances, school-wide parent meetings and other large gatherings to meet requirements for physical distancing.
- Transitions/Hallways: Limit transitions to the extent possible. Create hallway procedures to promote physical distancing and minimize gatherings.
- Personal Property: Establish policies for identifying personal property being brought to school (e.g., refillable water bottles, school supplies, headphones/earbuds, cell phones, books, instruments, etc.).

Hybrid/Onsite Plan

School Specific Functions/Facility Features:

- Handwashing: All students will have access to hand washing prior
 to lunch and after recess and PE periods. Frequent opportunities
 for hand washing will be provided throughout the school day.
 Hand washing will be supplemented with the use of hand
 sanitizer.
- Equipment: Classroom supplies will be cleaned and sanitized before use by another student. PE equipment will be cleaned and sanitized between cohort groups.
- Safety Drills: During fire drills, lockdown drills, earthquake drills, and all other safety drills, all cohort classes and staff will be physically distanced during exit, recovery, and reentry procedures.
- Events: Field trips will be cancelled or designed virtually for the school year. All assemblies, chapels, practices, special performances, school- wide meetings, field trips and other large gatherings will be cancelled, held in a virtual format, or modified in a manner that meets requirements for physical distancing.
- Transitions/Hallways: Hallway traffic direction will be marked with Velcro color spots and arrows on the carpet to show travel flow in the hallways and the Commons.

Transitions by classroom cohort groups will be staggered to reduce contact.

Student cohorts will remain in the classroom when the teachers transition to another classroom when possible.

Personal Property: Each classroom will have a limit on the number of personal items brought to school. A full list will be sent home prior to class starting with allowable items. Classroom teachers will develop policies for identifying person property brought to school (e.g., refillable water bottles, school supplies, headphones/earbuds, cell phones, books, instruments, etc.).

2e. ARRIVAL AND DISMISSAL

OHA/ODE Requirements

- Physical distancing, stable cohorts, square footage, and cleaning requirements must be maintained during arrival and dismissal procedures.
- Create schedule(s) and communicate staggered arrival and/or dismissal times.
- Assign students or cohorts to an entrance; assign staff member(s) to conduct visual screenings (see section 1f of the *Ready Schools, Safe Learners* guidance).
- Ensure accurate sign-in/sign-out protocols to help facilitate contact tracing by the LPHA. Sign-in procedures are not a replacement for entrance and screening requirements. Students entering school after arrival times must be screened for the primary symptoms of concern.
 - Eliminate shared pen and paper sign-in/sign-out sheets.
 - Ensure hand sanitizer is available if signing children in or out on an electronic device.
- Ensure alcohol-based hand sanitizer (with 60-95% alcohol) dispensers are easily accessible near all entry doors and other high-traffic areas. Establish and clearly communicate procedures for keeping caregiver drop-off/pick-up as brief as possible.

Hybrid/Onsite Plan

Arrival and Dismissal: Because the parents provide the transportation of students to and from school, students may arrive anytime between 7:30 – 8:00 AM and leave campus anytime between 3:15-3:45 PM.

Students will maintain a distance of six feet when entering and exiting the building. When arriving/leaving students must come from and go directly to their designated vehicle for transport. Parents/drivers will follow the school's drop-off/pick-up procedures and remain in or around their own vehicle to maintain social distancing. Drop-off/pick-up interactions need to be kept as brief as possible.

Upon arrival, students will go directly to their classroom. All students except grades K-2 will enter and exit from their classroom outside door. Students in grades K-2 will enter and exit from the lower grades STREAM classroom outside door.

All students must use hand-sanitizer/wash hands upon entry and exit.

Hand sanitizer will be available at entry/exit points.

Upon entering, the staff will conduct visual screenings at each entry point (see section 1f) and track cohort data. Staff will use a sign-in/sign-out protocol to help facilitate contact tracing.

The playground and gym will not be available before school begins or after dismissal by students or their siblings and friends.

2f. CLASSROOMS/REPURPOSED LEARNING SPACES

OHA/ODE Requirements

- Seating: Rearrange student desks and other seat spaces so that staff and students' physical bodies are six feet apart to the maximum extent possible while also maintaining 35 square feet per person; assign seating so students are in the same seat at all times
- Materials: Avoid sharing of community supplies when possible (e.g., scissors, pencils, etc.). Clean these items frequently. Provide hand sanitizer and tissues for use by students and staff.
- Handwashing: Remind students (with signage and regular verbal reminders from staff) of the utmost importance of hand hygiene and respiratory etiquette. Respiratory etiquette means covering coughs and sneezes with an elbow or a tissue. Tissues shall be disposed of in a garbage can, then hands washed or sanitized immediately.
 - Wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

Hybrid/Onsite Plan

Classrooms/Repurposed Learning Spaces:

Seating: Classroom desks and other seat spaces will be rearranged so that staff and students' physical bodies are six feet apart to the maximum extent possible while also maintaining 35 square feet per person. Seating will be assigned so students are in the same seat at all times.

Materials: Each classroom will limit the sharing of community supplies when possible (e.g., scissors, pencils, etc.). If needed to share, these items will be cleaned frequently. Hand sanitizer and tissues will be available for use by students and staff.

Handwashing: All students will wash or sanitize their hands prior to lunch. Additional hand washing or hand sanitizing opportunities will be provided throughout the school day, such as when transitioning between activities, before and after every snack and meal, after coming inside, after sneezing, blowing the nose, or coughing.

Signage at sinks/hand washing stations will remind students and staff of effective handwashing practices.

2g. PLAYGROUNDS, FIELDS, RECESS, BREAKS, AND RESTROOMS

OHA/ODE Requirements

- Keep school playgrounds closed to the general public until park playground equipment and benches reopen in the community (see Oregon Health Authority's <u>Specific Guidance for Outdoor</u> <u>Recreation Organizations</u>).
- After using the restroom students must wash hands with soap and water for 20 seconds. Soap must be made available to students

Hybrid/Onsite Plan

Playgrounds, Fields, Recess, Breaks, and Restrooms:

The playground will remain closed to the general public, family members of students, and visitors until park playground equipment and benches reopen in the community for public use.

Classes/cohorts may use the playground for recess on a staggered

- and staff. For learning outside if portable bathrooms are used, set up portable hand washing stations and create a regular cleaning schedule.
- Before and after using playground equipment, students must wash hands with soap and water for 20 seconds <u>or</u> use an alcohol-based hand sanitizer with 60-95% alcohol.
- Designate playground and shared equipment solely for the use of one cohort at a time. Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) should be cleaned and disinfected at least daily in accordance with CDC guidance.
- Cleaning requirements must be maintained (see section 2j of the Ready Schools, Safe Learners guidance).
- Maintain physical distancing requirements, stable cohorts, and square footage requirements.
- Provide signage and restrict access to outdoor equipment (including sports equipment, etc.).
- Design recess activities that allow for physical distancing and maintenance of stable cohorts.
- Clean all outdoor equipment at least daily or between use as much as possible in accordance with <u>CDC guidance</u>.
- ☑ Limit the number of employees gathering in shared spaces. Restrict use of shared spaces such as conference rooms, break rooms, and elevators by limiting occupancy or staggering use, maintaining six feet of distance between adults. Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable space, understanding that tables and room set-up will require use of all space in the calculation. Note: The largest area of risk is adults eating together in break rooms without face coverings.

Hybrid/Onsite Plan

scheduled throughout the school day.

After using the restroom, students must wash their hands with soap and water for 20 seconds.

Before and after going to recess/PE, students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol. Before and after using playground, outdoor, or gym equipment, students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

Playground equipment, outdoor equipment (including sports equipment), gym equipment, and shared equipment will be designated solely for the use of one cohort at a time. Outdoor playground structures will receive normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) will be cleaned and disinfected at least daily or between cohorts use as much as possible, in accordance with CDC guidance.

Cleaning and disinfecting requirements will be maintained. (See section 3j and the *GPAS Communicable Disease Management Plan* for cleaning procedures.)

Recess and PE activities will be planned to support physical distancing and maintain stable cohorts. This can include limiting the number of students on one piece of equipment, at one game, etc.

Classes may use the gym for recess/PE if/when available. If the gym is not available, students can have recess in their classroom.

Staff rooms, common staff lunch areas, and workspaces will be limited to single person usage at a time, maintaining six feet of distance between adults.

2h. MEAL SERVICE/NUTRITION

OHA/ODE Requirements

- ☐ Include meal services/nutrition staff in planning for school reentry.
- ☑ Prohibit self-service buffet-style meals.
- ☑ Prohibit sharing of food and drinks among students and/or staff.
- At designated meal or snack times, students may remove their face coverings to eat or drink but must maintain six feet of physical distance from others, and must put face coverings back on after finishing the meal or snack.
- Staff serving meals and students interacting with staff at mealtimes must wear face coverings (see section 1h of the *Ready Schools, Safe Learners* guidance). Staff must maintain 6 feet of physical distance to the greatest extent possible. If students are eating in a classroom, staff may supervise from the doorway of the classroom if feasible.
- Students and staff must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol before meals and shall be encouraged to do so after.
- Appropriate daily cleaning of meal items (e.g., plates, utensils, transport items).
- □ Cleaning and sanitizing of meal touch-points and meal counting system between stable cohorts.
- Adequate cleaning and disinfection of tables between meal periods.
- Since staff must remove their face coverings during eating and drinking, limit the number of employees gathering in shared

Hybrid/Onsite Plan

Meal Service/Nutrition: Staff serving meals and students interacting with staff at mealtimes must wear face coverings. Staff must maintain 6 feet of physical distance to the greatest extent possible. If students are eating in a classroom, staff may supervise from the doorway of the classroom if feasible.

Students and staff must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol before and after meals. If possible, students will wash hands in the classroom. If not, hallway and restroom procedures previously listed will be followed.

If offered, hot lunches will be carefully supervised until COVID-19 restrictions are lifted. All staff will be trained on meal service requirements. Pre-plated meals or snacks may be available.

All meals will be eaten in the classroom or outdoors for grades 3-8. All meals will be eaten in the Commons or outdoors for grades K-2.

Self-service buffet-style meals are prohibited. Sharing of food and drinks among students and/or staff is also prohibited.

At designated meal or snack times, students may remove their face coverings to eat or drink but must maintain six feet of physical distance

spaces. Restrict use of shared spaces such as conference rooms and break rooms by limiting occupancy or staggering use. Consider staggering times for staff breaks, to prevent congregation in shared spaces. Always maintain at least six feet of physical distancing and establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the calculation. Wear face coverings except when eating or drinking and minimize time in spaces where face coverings are not consistently worn.

Hybrid/Onsite Plan

from others, and must put their face coverings back on after finishing the meal or snack.

Students in grades K-2 will pick up food at the kitchen service deck and eat at tables in the Commons. Students in grades 3-8 will pick up food at the kitchen service deck and return to their classrooms to eat. Physical distancing requirements will be maintained in transit. If a classroom is unable to travel to the kitchen, kitchen staff will deliver meals to that classroom.

Students will not share utensils or other items during meals. Each table/desk will be cleaned and disinfected prior to meals being consumed

Tables/desks will be cleaned and disinfected between meal periods. Meal touch-points will be cleaned and sanitized between stable cohorts.

2i. TRANSPORTATION

OHA/ODE Requirements

- Include transportation departments (and associated contracted providers, if used) in planning for return to service.
- Buses are cleaned frequently. Conduct targeted cleanings between routes, with a focus on disinfecting frequently touched surfaces of the bus (see section 2j of the *Ready Schools, Safe Learners* guidance).
- Staff must use hand sanitizer (containing between 60-95% alcohol) in between helping each child and when getting on and off the vehicle. Gloves are not recommended; hand sanitizer is strongly preferred. If hand sanitizer is not available, disposable gloves can be used and must be changed to a new pair before helping each child.
- Develop protocol for loading/unloading that includes visual screening for students exhibiting symptoms and logs for contacttracing. This must be done at the time of arrival and departure.
 - If a student displays COVID-19 symptoms, provide a face covering (unless they are already wearing one) and keep six feet away from others. Continue transporting the student.
 - The symptomatic student shall be seated in the first row of the bus during transportation, and multiple windows must be opened to allow for fresh air circulation, if feasible.
 - The symptomatic student shall leave the bus first.
 After all students exit the bus, the seat and surrounding surfaces must be cleaned and disinfected.
 - If arriving at school, notify staff to begin isolation measures.
 - If transporting for dismissal and the student displays an onset of symptoms, notify the school.
- Consult with parents/guardians of students who may require additional support (e.g., students who experience a disability and require specialized transportation as a related service) to appropriately provide service.
- ☑ Drivers must wear masks or face coverings while driving, unless the mask or face covering interferes with the driver's vision (e.g., fogging of eyeglasses). Drivers must wear face coverings when not actively driving and operating the bus, including while students are entering or exiting the vehicle. A face shield may be an acceptable alternative, only as stated in Section 1h of the *Ready Schools, Safe Learners* guidance.

Hybrid/Onsite Plan

Transportation: Students will be individually transported by their family or by individual family arranged cars. No buses or public transportation will be used to transport students.

Students will be dropped off in the parking lot and come directly into the school. Parents will remain in their vehicle.

Students will be dismissed by the teacher and picked up in the parking lot. Parents will remain in their vehicle. The teacher may communicate with parents while they are in the vehicle, maintaining social distancing and wearing a face covering or a face shield. Teachers will supervise the pick-up areas to ensure students are adhering to distancing guidelines.

Except for grades K-2, students will enter and exit school through their classroom outside door. Students in grades K-2 will enter and exit school through from the lower grades STREAM classroom outside door.

Upon arrival, staff members will conduct a health screening of all students prior to their entering the school building. Once class has begun, tardy students in grades K-2 will be screened in the front office area. Students in the other classrooms will still be screened at the outside door of their classroom when arriving late. Logs of health screening will be kept for a minimum of 4 weeks.

OHA/ODE Requirements	Hybrid/Onsite Plan
☑ Inform parents/guardians of practical changes to transportation	
service (i.e., physical distancing at bus stops and while	
loading/unloading, potential for increased route time due to	
additional precautions, sanitizing practices, and face coverings).	
☐ Face coverings for all students, applying the guidance in section 1h	
of the <i>Ready Schools, Safe Learners</i> guidance to transportation	
settings. This prevents eating while on the bus.	
☐ Take all possible actions to maximize ventilation: Dress warmly,	
keep vents and windows open to the greatest extent possible.	

2j. CLEANING, DISINFECTION, AND VENTILATION

OHA/ODE Requirements

- □ Clean, sanitize, and disinfect frequently touched surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and shared objects (e.g., toys, games, art supplies) between uses multiple times per day. Maintain clean and disinfected (CDC guidance) environments, including classrooms, cafeteria settings and restrooms. Provide time and supplies for the cleaning and disinfecting of high-touch surfaces between multiple student uses, even in the same cohort.
- Outdoor learning spaces must have at least 75% of the square footage of its sides open for airflow.
- Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment should be cleaned and disinfected at least daily in accordance with <u>CDC</u> guidance.
- Apply disinfectants safely and correctly following labeling direction as specified by the manufacturer. Keep these products away from students.
- ☑ To reduce the risk of asthma, choose disinfectant products on the EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide, citric acid, or lactic acid) and avoid products that mix these with asthma-causing ingredients like peroxyacetic acid, sodium hypochlorite (bleach), or quaternary ammonium compounds.
- Schools with HVAC systems must evaluate the system to minimize indoor air recirculation (thus maximizing fresh outdoor air) to the extent possible. Schools that do not have mechanical ventilation systems shall, to the extent possible, increase natural ventilation by opening windows and interior doors before students arrive and after students leave, and while students are present. Do not prop open doors that can pose a safety or security risk to students and staff (e.g., exterior doors and fire doors that must remain closed.)
- Schools with HVAC systems should ensure all filters are maintained and replaced as necessary to ensure proper functioning of the system.
- All intake ports that provide outside air to the HVAC system should be cleaned, maintained, and cleared of any debris that may affect the function and performance of the ventilation system.
- Consider running ventilation systems continuously and changing the filters more frequently. Do <u>not</u> use fans if they pose a safety or health risk, such as increasing exposure to pollen/allergies or exacerbating asthma symptoms. Consider using window fans or box fans positioned in open windows to blow fresh outdoor air into the classroom via one window, and indoor air out of the classroom via another window. Fans must not be used in rooms with closed windows and doors, as this does not allow for fresh air to circulate.
- Consider the need for increased ventilation in areas where students with special health care needs receive medication or treatments.

Hybrid/Onsite Plan

Cleaning, Disinfection, and Ventilation:

Frequently touched surfaces (e.g., door handles, sink handles, drinking fountains, playground equipment) and shared objects (e.g., toys, games, art supplies) will be cleaned, sanitized, and disinfected between uses multiple times per day. Environments, including classrooms, eating areas, and restrooms will be cleaned and disinfected on a frequent basis in accordance with CDC guidance. Time and supplies will be provided for the cleaning and disinfecting of high-touch surfaces between multiple student uses, even in the same cohort.

Outdoor learning spaces must have at least 75% of the square footage of its sides open for airflow.

Playground equipment, outdoor equipment (including sports equipment), gym equipment, and shared equipment will be designated solely for the use of one cohort at a time. Outdoor playground structures will receive normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) will be cleaned and disinfected at least daily or between cohorts use as much as possible, in accordance with CDC guidance.

Disinfectants will be safely and correctly used following labeling directions as specified by the manufacturer. These products will be kept away from students. Only disinfectants will be used that will not exacerbate asthma or lung/breathing challenges. See the *GPAS Communicable Disease Management Plan*.

Ventilation systems will be checked and maintained. Ventilation procedures will be used to increase the circulation of outdoor air as much as possible by opening windows and doors, using fans, and through other methods. HVAC filters will be maintained and replaced as necessary to ensure proper functioning of the system.

OH	A/ODE Requirements	Hybrid/Onsite Plan
\boxtimes	Facilities must be cleaned and disinfected at least daily to prevent	
	transmission of the virus from surfaces (see CDC's guidance on	
	disinfecting public spaces).	
\boxtimes	Consider modification or enhancement of building ventilation	
	where feasible (see CDC's guidance on ventilation and filtration	
	and American Society of Heating, Refrigerating, and Air-	
	Conditioning Engineers' guidance).	

2k. HEALTH SERVICES

OH	A/ODE Requirements	Hybrid/Onsite Plan
	OAR 581-022-2220 Health Services, requires districts to "maintain a prevention-oriented health services program for all students"	Health Services:
	including space to isolate sick students and services for students with special health care needs. While OAR 581-022-2220 does not apply to private schools, private schools must provide a space to isolate sick students and provide services for students with special health care needs.	Isolation of Students: Students or staff who become sick or show signs of illness on campus will be isolated to the infirmary room located in the school office. This space will be thoroughly cleaned and disinfected between each use. Students will be supervised until their parent arrives to pick them up. Supervising staff will maintain a safe
	Licensed, experienced health staff should be included on teams to determine district health service priorities. Collaborate with health professionals such as school nurses; SBHC staff; mental and behavioral health providers; dental providers; physical, occupational, speech, and respiratory therapists; and School Based Health Centers (SBHC).	distance while visibly being able to monitor the student. The school will collaborate with the LPHA as needed.

2I. BOARDING SCHOOLS AND RESIDENTIAL PROGRAMS ONLY Hybrid/Onsite Plan

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Provide specific plan details and adjustments in Operational	Not applicable – We are not a boarding school.
Blueprints that address staff and student safety, which includes	
how you will approach:	
Contact tracing	
The intersection of cohort designs in residential settings (by	
wing or common restrooms) with cohort designs in the	
instructional settings. The same cohorting parameter	
limiting total cohort size to 100 people applies.	
 Quarantine of exposed staff or students 	
 Isolation of infected staff or students 	
 Communication and designation of where the "household" 	
or "family unit" applies to your residents and staff	
☐ Review and take into consideration CDC guidance for shared or	
congregate housing:	
Not allow more than two students to share a residential	
dorm room unless alternative housing arrangements are	
impossible	
Ensure at least 64 square feet of room space per resident	
Reduce overall residential density to ensure sufficient space	
for the isolation of sick or potentially infected individuals,	
as necessary;	
 Configure common spaces to maximize physical distancing; 	
 Provide enhanced cleaning; 	
Establish plans for the containment and isolation of on-	
campus cases, including consideration of PPE, food delivery,	
and bathroom needs.	
Exception	
K-12 boarding schools that do not meet the Advisory Metrics (Section 0	
of the <i>Ready Schools, Safe Learners</i> guidance) may operate, in	
consultation with their Local Public Health Authority, provided that:	

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	They have a current and complete RSSL Blueprint and are	
	complying with Sections 1-3 of the <i>Ready Schools, Safe Learners</i>	
	guidance and any other applicable sections, including Section 2L of	
	the <i>Ready Schools, Safe Learners</i> guidance.	
	The school maintains a fully-closed residential campus (no non-	
	essential visitors allowed), and normal day school operations are	
	only offered remotely through distance learning.	
	There have been no confirmed cases of COVID-19 among school	
	staff or students in the past 14 days.	
	Less than 10% of staff, employees, or contracts (in total) are	
	traveling to or from campus. Staff in this designation will:	
	 Limit travel to essential functions. 	
	 Carefully monitor their own health daily and avoid coming 	
	to campus at any potential symptom of COVID-19.	
	Any boarding students newly arriving to campus will either:	
	 Complete a quarantine at home for 14 days* prior to 	
	traveling to the school, OR	
	 Quarantine on campus for 14 days.* 	
	* A 14-day quarantine is the safest option to prevent the spread of	
	COVID-19 to others. However, in either option above, for boarding	
	students who have not developed any symptoms, schools may	
	consider ending quarantine after 10 days without any testing, or	
	after 7 days with a negative result on a COVID-19 viral test	
	collected within 48 hours before ending quarantine, unless	
	otherwise directed by the local public health authority (LPHA).	
	Student transportation off-campus is limited to medical care.	

2m. SCHOOL EMERGENCY PROCEDURES AND DRILLS

OHA/ODE Requirements

✓ In accordance with ORS 336.071 and OAR 581-022-2225 all schools (including those operating a Comprehensive Distance Learning model) are required to instruct students on emergency procedures. Schools that operate an On-Site or Hybrid model need to instruct and practice drills on emergency procedures so that

- At least 30 minutes in each school month must be used to instruct students on the emergency procedures for fires, earthquakes (including tsunami drills in appropriate zones), and safety threats.
- Fire drills must be conducted monthly.

students and staff can respond to emergencies.

- Earthquake drills (including tsunami drills and instruction for schools in a tsunami hazard zone) must be conducted two times a year.
- Safety threats including procedures related to lockdown, lockout, shelter in place and evacuation and other appropriate actions to take when there is a threat to safety must be conducted two times a year.
- ☑ Drills can and should be carried out as close as possible to the procedures that would be used in an actual emergency. For example, a fire drill must be carried out with the same alerts and same routes as normal. If appropriate and practicable, COVID-19 physical distancing measures can be implemented, but only if they do not compromise the drill.
- When or if physical distancing must be compromised, drills must be completed in less than 15 minutes.
- ☐ Drills shall not be practiced unless they can be practiced correctly.
- If on a hybrid schedule, conduct multiple drills each month to ensure that all cohorts of students have opportunities to

Hybrid/Onsite Plan

School Emergency Procedures and Drills:

Fire, earthquake, lockdown, secure, shelter in place, evacuation, and other essential emergency drills will continue to take place on a regular schedule. If physical distancing must be compromised, drills must be completed in less than 15 minutes. Students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol after the drill has been completed.

C	HA/ODE Requirements	Hybrid/Onsite Plan
	participate in drills (i.e., schedule on different cohort days	
	throughout the year).	
	Students must wash hands with soap and water for 20 seconds or	
	use an alcohol-based hand sanitizer with 60-95% alcohol after a	
	drill is complete.	

2n. SUPPORTING STUDENTS WHO ARE DYSREGULATED, ESCALATED, AND/OR EXHIBITING SELF-REGULATORY CHALLENGES

OHA/ODE Requirements

- Utilize the components of Collaborative Problem Solving or a similar framework to continually provide instruction and skillbuilding/training related to the student's demonstrated lagging skills.
- ☐ Take proactive/preventative steps to reduce antecedent events and triggers within the school environment.
- Be proactive in planning for known behavioral escalations (e.g., self-harm, spitting, scratching, biting, eloping, failure to maintain physical distance). Adjust antecedents where possible to minimize student and staff dysregulation. Recognize that there could be new and different antecedents and setting events with the additional requirements and expectations for the 2020-21 school year.
- Establish a proactive plan for daily routines designed to build self-regulation skills; self-regulation skill-building sessions can be short (5-10 minutes), and should take place at times when the student is regulated and/or is not demonstrating challenging behaviors.
- Ensure all staff are trained to support de-escalation, provide lagging skill instruction, and implement alternatives to restraint and seclusion.
- Ensure that staff are trained in effective, evidence-based methods for developing and maintaining their own level of self-regulation and resilience to enable them to remain calm and able to support struggling students as well as colleagues.
- Plan for the impact of behavior mitigation strategies on public health and safety requirements:
 - Student elopes from area
 - o If staff need to intervene for student safety, staff should:
 - Use empathetic and calming verbal interactions (i.e. "This seems hard right now. Help me understand... How can I help?") to attempt to re-regulate the student without physical intervention.
 - Use the least restrictive interventions possible to maintain physical safety for the student and staff.
 - Wash hands after a close interaction.
 - Note the interaction on the appropriate contact log.
 - *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs.
 - Student engages in behavior that requires them to be isolated from peers and results in a room clear.
 - If students leave the classroom:
 - Preplan for a clean and safe alternative space that maintains physical safety for the student and staff
 - Ensure physical distancing and separation occur, to the maximum extent possible.
 - Use the least restrictive interventions possible to maintain physical safety for the student and staff.
 - Wash hands after a close interaction.
 - Note the interaction on the appropriate contact log.
 - *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs.

Hybrid/Onsite Plan

Teachers will use collaborative problem solving to assist students before a problem arises. They will keep students apart who escalate each other.

Teachers and staff will refer to the ODE's "Planning for COVID-19 Scenarios Schools" toolkit when responding to situations related to students who are dysregulated, escalated, and/or exhibiting self-regulatory challenges.

OHA/ODE Requirements	Hybrid/Onsite Plan
Student engages in physically aggressive behaviors that	
preclude the possibility of maintaining physical distance	
and/or require physical de-escalation or intervention	
techniques other than restraint or seclusion (e.g., hitting,	
biting, spitting, kicking, self-injurious behavior).	
 If staff need to intervene for student safety, staff should: 	
 Maintain student dignity throughout and following 	
the incident.	
 Use empathetic and calming verbal interactions (i.e. 	
"This seems hard right now. Help me understand	
How can I help?") to attempt to re-regulate the	
student without physical intervention.	
 Use the least restrictive interventions possible to 	
maintain physical safety for the student and staff	
 Wash hands after a close interaction. 	
 Note the interaction on the appropriate contact log. 	
*If unexpected interaction with other stable cohorts occurs, those	
contacts must be noted in the appropriate contact logs.	
□ Ensure that spaces that are unexpectedly used to deescalate	
behaviors are appropriately cleaned and sanitized after use before	
the introduction of other stable cohorts to that space.	

20. PROTECTIVE PHYSICAL INTERVENTION

OH	A/ODE Requirements	Hybrid/Onsite Plan
\boxtimes	Reusable Personal Protective Equipment (PPE) must be cleaned	Reusable Personal Protective Equipment (PPE) will be cleaned and
	and disinfected following the manufacturer's recommendation,	disinfected following the manufacturer's recommendation, after every
	after every episode of physical intervention (see section 2j.	episode of physical intervention (see section 2j. Cleaning, Disinfection,
	Cleaning, Disinfection, and Ventilation in the <i>Ready Schools, Safe</i>	and Ventilation in the <i>Ready Schools, Safe Learners</i> guidance). Single-
	Learners guidance). Single-use disposable PPE must not be re-	use disposable PPE must not be re-used.
	used.	

3. Response to Outbreak

3a. PREVENTION AND PLANNING

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Review the "Planning for COVID-19 Scenarios in Schools" toolkit.	Prevention and Planning:
	GPAS will review the "Planning for COVID-19 Scenarios in Schools" toolkit.
	GPAS will coordinate with the LPHA to establish communication channels related to the current transmission level.
	Parents, the local school board, the regional superintendent, and the LPHA will be notified immediately if a confirmed case of COVID-19 is identified in one of the students or staff in the school. Once a directive is given to the school via the LPHA, stakeholders will again be notified in the same manner.
	When a diagnosed case is provided, the LPHA will communicate cases to the school in order to coordinate case investigation and determine additional contact tracing/monitoring, and make recommendations to identified case/contacts on isolation/quarantine.

3b. RESPONSE

OHA/ODE Requirements

- Review and utilize the "Planning for COVID-19 Scenarios in Schools" toolkit.
- Ensure continuous services and implement Comprehensive Distance Learning.
- Continue to provide meals for students.

Hybrid/Onsite Plan

Response to Outbreak Protocol: See the *GPAS Communicable Disease Management Plan*.

GPAS will review and utilize the "Planning for COVID-19 Scenarios in Schools" toolkit.

Response Protocol: GPAS will work in coordination with the Oregon Conference of Seventh day Adventists and the LPHA to follow the GPAS Communicable Disease Management Plan and follow the newest version of the ODE's **Ready Schools, Safe Learners** guidance document.

Reporting: If anyone who has been on campus is known to have been diagnosed with COVID-19, a report will be made to the LPHA and the LPHA will be consulted regarding cleaning and possible classroom or program closure.

Any cluster of illness (2 or more people with similar illness) among staff or students will be reported to the LPHA.

When cases are identified in the school, a response team will be assembled to assign necessary responsibilities.

Large school events will be modified, postponed, or cancelled until restrictions have been lifted.

If a classroom or the school is closed due to an outbreak, Short-Term Distance Learning or Comprehensive Distance Learning protocols will be implemented.

Communication will be provided to parents and staff regarding the criteria that must be met in order for On-site instruction to resume and relevant timelines.

3c. RECOVERY AND REENTRY

OHA/ODE Requirements

- Review and utilize the <u>"Planning for COVID-19 Scenarios in Schools"</u> toolkit.
- Clean, sanitize, and disinfect surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and follow <u>CDC</u> <u>guidance</u> for classrooms, cafeteria settings, restrooms, and playgrounds.
- When bringing students back into On-Site or Hybrid instruction, consider smaller groups, cohorts, and rotating schedules to allow for a safe return to schools.

Hybrid/Onsite Plan

Recovery and Reentry: GPAS will review and utilize the "Planning for COVID-19 Scenarios in Schools" toolkit.

Instructional models that support all learners in Comprehensive Distance Learning will be planned in the event the LPHA directs a classroom/cohort or school closure. Distance learning and in-person learning will be planned collaboratively, allowing for students and the school community to move between an in-person and distance learning model.

Teachers and students will make use of the G Suite for Education (Google for Education) software, including Google Classroom, to facilitate distance learning. Provisions will be made for non-digital distance learning where Internet and computers are not accessible.

Cleaning and disinfecting surfaces (e.g., playground equipment, door handles, sink handles, drinking fountains) will follow CDC guidance for classrooms, eating areas, restrooms, and playgrounds as outlined in the GPAS Communicable Disease Management Plan.

The school will follow the LPHA guidance regarding the return of students and staff for On-Site instruction.

This section must be completed by any public school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

This section does not apply to private schools.

- □ We affirm that, in addition to meeting the requirements as outlined above, our school plan has met the collective requirements from ODE/OHA guidance related to the 2020-21 school year, including but not limited to requirements from:
 - Sections 4, 5, 6, 7, and 8 of the Ready Schools, Safe Learners guidance,
 - The Comprehensive Distance Learning guidance,
 - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
 - Planning for COVID-19 Scenarios in Schools
- □ We affirm that we cannot meet all of the collective requirements from ODE/OHA guidance related to the 2020-21 school year from:
 - Sections 4, 5, 6, 7, and 8 of the **Ready Schools, Safe Learners** guidance,
 - The Comprehensive Distance Learning guidance,
 - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
 - Planning for COVID-19 Scenarios in Schools

We will continue to work towards meeting them and have noted and addressed which requirement(s) we are unable to meet in the table titled "Assurance Compliance and Timeline" below.

4. Equity

5. Instruction

6. Family, Community, Engagement

7. Mental, Social, and Emotional Health

8. Staffing and Personnel

Assurance Compliance and Timeline

If a district/school cannot meet the requirements from the sections above, provide a plan and timeline to meet the requirement.

List Requirement(s) Not Met	Provide a Plan and Timeline to Meet Requirements Include how/why the school is currently unable to meet them
